

# Ring Sizing Guide

Please read our blogpost "Finding Your Ring Size" for detailed info before using this guide.

## To Size from a Ring

1. **Print this chart at 100% to ensure accuracy.**  
Use a ruler to confirm that the red line below measures exactly 3"
2. Use a ring that is currently worn & fits well.
3. If fitting for a loved one, make sure to use one of their rings that they wear on the same finger for which you are buying.
4. Place the ring over the circles on the right until you find a perfect fit. A perfect fit is when the outside of the circle just fits to the inside of the ring.

## To Order a Free Ring Sizer

It is always recommended that you go to your local jeweler to be sized in person. However we can offer you the next best thing. Use our Contact page to request a free ring sizer and be sure to include your shipping address in the comment section. Please allow 10 days for arrival.
